

Love Me Better – Lauria

There's too much you're trying to control

That's why you can't let go

I swear you can let-

Go of all the chains

Let me explain

I like the pain and the strains

If it gets you in my veins

Love me better

Love me, love baby

Like you need

What only I provide

Tell me, let me hear it

When you want me

When it feels just right

Heaven on earth

Don't stop-stop-stop

We forget the world

So hot-hot-hot

And when we reach the top

Remember

Love me better

Stronger, faster harder

Love me better

Cause it's now or never baby

Love me better

Tired of the old
Tired of the tame
I need your lips to linger
I need to hear my name
Show me that I'm yours
Wake up all my sins
My body is craving, light it up
Yeah light up a match on my skin

Oh I want it baby I want it
Love me, love me
Love me, love me
Love me, love me better
Stronger, faster and harder baby
Love me better, better
Yeah love me better
