

Monster ft. J.Sol - Lauria

I replayed what went down in my head
She said I hurt her, but she hurt me instead
Words so painful, did you know?
And when I'm lonely, all tears flow
You got me into the dark
I'll stay there holding a question mark
Until I see the light of a spark
From you

I don't want to lose myself
I don't break as well
Once I hear you
Mix lies and lies and more lies when you tell your truth
No I can't just lose myself
Though my mind wants to say farewell
Because of you
It's all, it feels like it's all because of you

No I don't wanna be
The monster that you see
Something I've never been
Lord knows I'm not even willing
No I will never be
The monster that you see
Standing in front of me
Can't you see my heart's missing a piece?

All three eyes closed
And I see her
Enemy or
Tryna be earth
Tryna re-earth
Tiny monsters
Reproducing power powers
Puffin smoke or clouding sounds
I see hieroglyphics floatin'
My creator's all around
So she's real, I hear she's potent
Coldest whispers lick my ears
All my fears
They breath just like me
Try to fight me
Everybody
Ya so distant from me now
I'm just proud I know my story

When I rise, I'll feel my glory
But now I frown,
You not around
I'm surrounded by her now

Seems like I'm always the villain
Seems like there's always room for more pain
With these dark thoughts I'll go insane

No I don't wanna be
The monster that you see
Something I've never been
Lord knows I'm not even willing
No I will never be
The monster that you see
Standing in front of me
Can't you see my heart's missing a piece?
No I don't wanna be
The monster that you see
Something I've never been
Lord knows I'm not even willing
No I will never be
The monster that you see
Standing in front of me
Can't you see you're holding the missing piece?
